

FOF2021 - SECOND ANNOUNCEMENT

We are pleased to provide you with some details about the FOF2021, to be held virtually on April 26 - 30, 2021.

We also want to mention that FOF2021 is held in the year of the 150th anniversary of the founding of the Astronomical Observatory of Córdoba (OAC, <https://oac.unc.edu.ar/>), a pioneering science institution in the region.

We remind you that the registration to the fof remains open and you can send your contributions until March 30th. Participants are invited to submit their contributions, which may be presented orally or as posters, filling the form in the website <http://fof.oac.uncor.edu/2021/registration/>. We encourage any underrepresented groups to submit their contributions.

Talks will be pre-recorded and discussed in the conference session and the speakers will have 2 minutes before the corresponding session to introduce their contributions. Further details and instructions will be on the webpage.

For the discussion sessions the software application google meet will be used. Google meet is compatible with Windows, iOS and Linux. The links for the discussion sessions will be sent to all participants and will be available at the webpage a week before the meeting.

All relevant information regarding the meeting will be appearing in the meeting webpage:
<http://fof.oac.uncor.edu/2021/>

Please, do not hesitate to contact us for any question through the email address:
fof@observatorio.unc.edu.ar

IMPORTANT DATES:

Registration opening: March 1st, 2021.

Abstract submission deadline: March 30th, 2021.
