FOF2023 - FIRST ANNOUNCEMENT

The Organizing Committee of the *Friends of Friends (FoF)* annual meeting is pleased to announce that the **registration** for the XII edition of the event is **open**, and that it will be held from **April 10 to April 14, 2023**, at the Astronomical Observatory of the National University of Córdoba, in the city of Córdoba, Argentina.

The **FoF** is a yearly international meeting jointly organized by the Instituto de Astronomía Teórica y Experimental (IATE, <http://iate.oac.uncor.edu>) and the Astronomical Observatory of the National University of Córdoba (OAC, <http://oac.unc.edu.ar>). It aims to foster the interaction between members of the local and international astronomical communities to promote collaborative networks in a friendly atmosphere.

The list of confirmed speakers is already on display at the meeting website <http://fof.oac.uncor.edu/>. Oral and poster contributions will be accepted, and there will be the possibility of holding parallel thematic workshops, provided there is a sufficient number of interested people.

REGISTRATION

Registration is **free** and is now open at <http://fof.oac.uncor.edu/>. We kindly ask you to complete the form before **March 10, 2023**. Our wish is to accept all submitted contributions; however, if the number of these is high, a selection might be necessary, which will be based on order of registration and thematic distribution. So register soon for an early confirmation!

FINANCIAL SUPPORT

Unfortunately, at this point we cannot offer financial assistance of any kind. Very limited support, however, could be available as the meeting date approaches.
